CALL...

TO ALL PENNSYLVANIA FARMERS

SEP 19 1938

GREETINGS:—

The farmers of Pennsylvania are threatened with new difficulties. During 1937 prices of farm products dropped 24%; while prices of goods farmers must buy declined only 4½%. Unusually favorable weather conditions resulted in bumper crops for 1938. A 40% cut in the price of wheat has been the result; and milk is about a cent a pound in many markets. Already in this country 53% of our country's land is worked by tenants and sharecroppers. Unless immediate action is taken, farming, the backbone of our democratic traditions, will pass into the hands of corporations and monopoly.

We believe that *it is now up to us* to act quickly and aggressively in our own interests. We believe the *real solution* for many farm problems will come only *when Farmers write the laws on matters pertaining to the farm and agriculture*. Therefore, we invite every farm organization, farm women's clubs, farm youth groups, cooperatives and unorganized farmers, to send delegates to the

PENNSYLVANIA FARMERS' LEGISLATIVE CONFERENCE

October 14-15, 1938, beginning 1 p.m.

State Farm Show Bldg., Harrisburg, Penna.

This Conference with Your Help and Participation will attempt to:

1. Write a General Legislative Program on the Basis of Unified Farm Opinion.
2. Give Special Consideration to the Milk Situation and Take Steps for the Immediate Improvement of the Position of the Milk Producer.
3. Examine the Role of Cooperatives in Helping the Farmer Solve His Problems.
4. Select a Statewide Legislative Committee that Can Speak for All the Farmers of Pennsylvania at Harrisburg, to the State Administration and to the State Legislature; and that Will Continue to Fight for the Adoption of Our Program.
5. Examine the Problems of Security for Our Farm Youth.

Because Producer-Consumer relations will become involved in the problems before the Conference, urban consumer groups and labor bodies are invited to send regular or fraternal delegates as specified. We welcome any farmer, farm wife or farm youth as a guest and anticipate that there will be hundreds and hundreds of them. Let us rally for progress and security and better farm prices.

Call sponsored by the Penna. Farmers' Provisional Committee for Progressive Legislation

ARRANGEMENTS COMMITTEE:

Chairman: SAYLOR F. HARTMAN,
Member State Board Farmers' Union of America, Palmyra, R.F.D., No. 1
SAMUEL R. NISSLEY,
Pres. Lancaster Co. Farmers' Union, East Petersburg, Pa.
IRWIN A. LONGENECKER,

* AN APPEAL TO AMERICANS

#27

America is confronted by a historic opportunity. It lies within the power of our people to destroy the want and misery and degradation which, operating for the past eighty years through the "sharecropper system" of land cultivation, have made a mockery of our democratic professions. The end of a vicious system of exploitation of man by his fellowman, of a process by which generations of native-born Americans in the South have been sacrificed, can be in sight.

More than two million sons of southern farm families are now in the armed services of the United States. Their return at the end of the war will present a problem of the greatest magnitude to our people. In 1930, the great majority of these young men were children. In that year, southeastern farm families, predominantly of the "sharecropper country," with approximately 4,250,000 children, received 3% of the national income, while northeastern non-farm people, with approximately 8,500,000 children, received 42% of the national income. This imbalance has resulted among the 9,000,000 men, women and children of the "sharecropper country" in wretched and unenlightened lives, neglect and waste of the land, the plagues of poverty and malnutrition, all epitomized in the "Grapes of Wrath" saga.

Poverty, illiteracy, crime and disease go hand in hand. An economic, social and cultural lag in any part of the country is an economic, social and cultural damage to all parts of the country. Forty per cent of the young people, ten to twenty years old, on farms in 1920, were in urban areas by 1930. Sixty per cent of this migration was from the southern rural area. A large proportion of the children who in their non-productive years are supported and educated by rural people, become in their economically creative years the producers in the vital industries and the citizens of the urban communities. Thus economic and cultural backwardness is transmitted to the country as a whole, to impair the foundations of our national democracy. This migration, slackened during the past decade, has been accelerated as a result of the war and the demands of war industry. Social and racial tensions have been transmitted into the great in-

dustrial centers of the nation, creating such explosive situations as the epidemic of race rioting.

The problem faced by America is how to turn a national disaster into a great national asset through the emancipation of more than 9,000,000 men, women and children of the "sharecropper country." This problem can be met and managed by an enlightened handling of the demobilization program as it affects the millions of fighting men who stem from the soil. The program which is presented elsewhere on this page is designated *A Magna Charta for Southern Agriculture*. For it will affect vitally those hundreds of thousands of landless ex-soldiers of the South upon their return, rather than their brothers-in-arms who come from the farming regions of the North and West, where independent land-holding is the rule. This *Magna Charta* is presented by the National Sharecroppers Fund as a basis for discussion. It is not a legislative program, but it is an invitation to thought and action on an evil condition which has blighted the lives and hopes of millions of Americans of the generations since the War Between the States.

The framers of the "GI Bill of Rights" sought merely to deal fairly with the returned soldier. The perspective of the National Sharecroppers Fund is much wider. It is to make of this national obligation a national asset: to erase one of the great historic blotches upon the record of American democracy through direct attack upon the vicious sharecropping system. Land for the landless soldier is not only a slogan; it is a necessary step if the returned soldier who stems from the soil is to be other than a stranger in the house of his fathers.

The National Sharecroppers Fund invites the support of every American in furtherance of this *Magna Charta for Southern Agriculture*. Justice to the soldier who has sacrificed greatly in his country's service, welded to a practical program designed to attack the "sharecropper system" at its roots, cannot but commend itself to every American interested in the preservation and extension of our democracy. We invite your adherence to these objectives and your financial aid for the work of the National Sharecroppers Fund.

A MAGNA CHARTA FOR SOUTHERN AGRICULTURE

WE PROPOSE that every veteran of the armed services who shall have been discharged under conditions other than dishonorable, shall have the right, subject to reasonable tests as to his ability and experience as a farmer, to government aid in securing ownership of a fairly-valued, "family size" farm. The size of such farm will vary in different localities, according to the conditions of the soil, crops and climate, but in every case the measure will be the ability of the farm, under careful cultivation, to support adequately a family. The inclusion of every item of labor-saving machinery necessary in the operation of the specific farm is envisaged.

WE PROPOSE that the purchase be financed by an appropriate public agency, either through direct loan or through total government guarantee of any loan contracted through ordinary commercial channels. Cheap credit not to exceed four per cent per annum, and long-term amortization privileges of not less than twenty years, are contemplated.

WE HOLD IT ESSENTIAL that there be no discrimination on account of race, creed or color, and specifically between Negro and white, in the administration of these benefits.

SIGNED:
